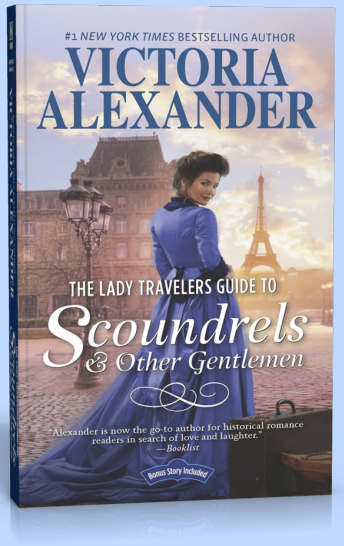
Bon Voyage, Lady Travelers!



My Lady Travelers have packed their bags and are finally on their way! The first in the series—THE LADY TRAVELERS GUIDE TO SCOUNDRELS AND OTHER GENTLEMEN takes us to Paris for the Exposition Universelle and the opening of the Eiffel Tower. And it's getting fabulous reviews!!!

"Alexander celebrates the spirit of adventure, elevates dubious scheming with good intentions, and advocates for the yielding of judgment and practicality to hedonism and happiness." *Publisher's Weekly starred review*

Readers will immediately find themselves thoroughly disarmed by Alexander's deliciously droll wit and flair for clever characterization, both of which are on full display in this exceptional start to the author's sparkling new Lady Travelers Society series..." *Booklist starred review*

Did you hear me squeal? Well, I did. More than once. Honestly, sending a book out into the world is like sending your kid off to school for the first time. It's terrifying. Did you prepare them well enough? Will they be safe? Will they make friends? My first kid arrived at kindergarten and informed me I didn't need to go in with her and I could go home. No, I didn't peek in the window but I did think about it. My second child was a little more willing to allow me to accompany him for the full anxious mother experience. I think he was humoring me.
